

STATE TEAMS TROPHY CALCULATIONS FOR 2015 NATIONALS

Nett scores of the two highest placed competitors in each division be added together to give each State / Territory a cumulative score. If they only have one competitor in a particular division, they take that score and add the score equivalent to DNC for every race. If they are not represented in a particular division at all, they get 2 x the score equivalent to DNC for every race. Lowest overall points wins.

In the event of a tie-break, use the Appendix 2 system - the State / Territory whose top two competitors in all divisions have the highest number of first places wins the tie-
